

## Anibou Longreach

Neil Burley designed a seating collection in 1990 with the intention of complimenting Artek at Anibou. Long, low and luxurious define Burley's approach.

Longreach is a timeless sofa – equally at ease in residential and commercial contexts. Tasmanian Sassafras legs quietly mark it as distinctly Australian.

Considered seat tilt, balanced depth and height, a gentle cantilever and an intentional neutrality work in concert to create an Australian design classic.

Hand crafted by our trusted maker in Sydney and available with slipcover or fully upholstered in a selection of fine leathers and Kvadrat fabrics.
